

About

HubSync pulls data directly from tax return preparation software's electronic filing modules to track all electronic filings in one central location. With personalized views, firm users can easily see the status of returns and extensions by year, type, preparer, jurisdiction, and status.

Group	Location/Re...	Tax Type	Preparer	Taxpayer Name	Status
Accepted (299)					
Error - Not Submitted (49)					
Rejected (16)					
349	19F96269-V1	1041	Daniela Anzopp	Liveth	Rejected
350	19F100296-V1	1041	Daniela Anzopp	Wolnyx	Rejected
351	19F98140-V1	1041	Daniela Anzopp	Skibex	Rejected
352	19F98166-V2	1041	Daniela Anzopp	Worlpedia	Rejected
353	19F98143-V1	1040	Daniela Anzopp	Brainounge	Rejected

Not initiated	1040	Wiegand Inc
Not initiated	1040	Krajcik-Brekke
Not initiated	1040	Funk LLC
Not initiated	1040	Hane-Kirlin
Not initiated	1040	Murray-Nicolas

eFile Automation

HubSync allows for bi-directional integration to the third-party tax preparation electronic filing modules. Firms can automate the filing of returns and extensions directly from HubSync. The moment the 8879 is signed, the return can be submitted to the IRS and/or states automatically!

Benefits

- ⚡ Significant reduction in time spent tracking electronic filing statuses
- ⚡ More users have visibility without needing access to the EFS product
- ⚡ Provides efficiency and cost savings with automating eFile releases upon 8879 receipt
- ⚡ No more outdated exports!
- ⚡ Ability to cross reference the eFile status with the workflow status (with HubSync's workflow tracking module) to eliminate time spent around deadlines ensuring all client returns/ extensions and jurisdictions are correctly filed
